AMENDMENT AND RESPONSE B AFTER FINAL

Sir:

In response to the Final Office Action mailed September , 2007, Applicant respectfully submits the following response to place this case in condition for allowance. Alternatively, and in addition to the arguments presented herein, the Applicant requests that the Final status be withdrawn as premature, since the Examiner did not in fact cite a new reference against the new limitations added to the main independent claims. As noted in the Office Action, the Examiner has simply relied on the previously cited Jungwa et al. reference against the "search predicates" and "logical operators" language that was added. Accordingly, since the new reference was not necessitated by any amendment the Applicant submitted, the Finality should be withdrawn.

Amendments to the claims begin on page 2.
